

**FWM-9X-D**

## Product Description

The Multilink FWM-9X-D is a high density wall mount fiber distribution unit designed to support patching and splicing in one unit. The unit has 9 adapter panel positions allowing for a wide variety of fiber termination connector types and is equipped with a set of double lockable doors that are keyed differently to maintain separation and security for the Network and Distribution sides of the termination panels. The FWM-9X-D is a member of a larger family of Fiber Distribution Units.
