

336S Traffic Control Cabinet

Product Description

The 336S Traffic Control Cabinet has been evaluated to FDOT specification 785 (FA 5-16-13) and placed on the Florida Department of Transportation's Approved Product List (APL).

Features

Swing open door equipped with piano hinges (3 places each door)
Hooks to place poly bag (document holder)
Stiffener brackets for door support (both doors)
3-point lock mechanism with Corbin #2 lock and gasket for weather tight seal
Bottom through drains any accumulated water / moisture to the outside
Air filter placed behind the intake vent plate, secured in place by a spring loaded clamp and directs incoming air downward.
Door stop holds the door open at 90° and 120° positions
Double flange surrounding door frames prevent water ingress
Sun shield (on both cabinet and doors)
Cover plate
Transfer switch enclosure (does not protrude inside)

Features Cont.

Green LED indicator light (mounted on the top)
Removable rack assembly - 19" EIA rack rails, zinc plated, holes tapped for 10-32 screws
Comes with 1RU sliding shelf w/ active work area of 15.25" x 11"
Equipped with electrical panel and ground bar along with cabined ground
Crowned top and sun shield to prevent standing water
Generator cord entrance is covered w/ metal plate when not in use
When generator cord is hood up, gasket attached at bottom seals the extra opening
Transfer switch comes w/ ability to change between utility power and generator power
Transfer switch has a 30AMP twist lock receptacle w/ recessed male contact for generator hook up
