

SFX-0 Single In Line Fiber Optic Splice Enclosure

020-234-10

Product Description

The Starfighter Xpress comes from a heritage of proven and established in-line splice enclosures that are tested in accordance to Telcordia GR-771-Core and Multilink's Six Sigma standards. The Starfighter Xpress splice terminal closure is the choice for FTTX greenfield, brownfield and future fiber plant expansions. Its versatile design allows for field expansions from a standard 48 to 96 count splice capacity, or 96 to 192 ribbon fiber with the simple addition of merging an additional Starfighter Xpress base and cover that has a removable sealed window opening. The cover of each Starfighter Xpress can be interchangeable with a flat cover or a drop port cover. The Starfighter Xpress can be fitted in the field as well with a patch and splice kit that can hold up to 24 patch and splices per Starfighter Xpress enclosure. Additional drop capacity can be achieved through adding grommet inserts to the cable entry grommets end plate housing holders. There are over 18 grommet inserts to choose from. The drop port cover can be outfitted with Multilink's Surelight™ SC/LC adapters and or the Scout adapters and Optitaps™. Multilink's Starfighter Xpress has the ability to grow with the fast changing needs of your fiber plant.

Features & Benefits

Feature	Description
Removable Seal Window Opening:	The removable seal window opening allows you to utilize 96 splices, doubling the capacity of the Starfighter Xpress.
Interchangeable Grommet Housing:	The Starfighter Xpress has the ability to accept many grommets, including flat drops, making it ideal for almost any cable.

Plant Expansion In The Field:	Quick on site expansions can be accomplished by adding additional splice trays (4 maximum). The Starfighter Xpress also has the ability to install a standard bulkhead that gives you patch and splice ability.
Patch Capacity:	The Starfighter Xpress can house bulkheads for both (12) SC and (24) LC adapters.

Specifications

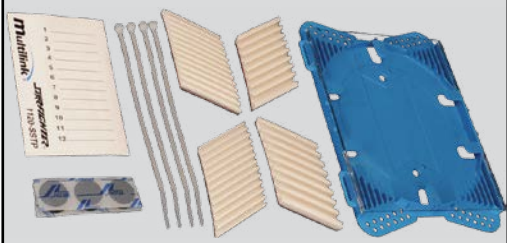

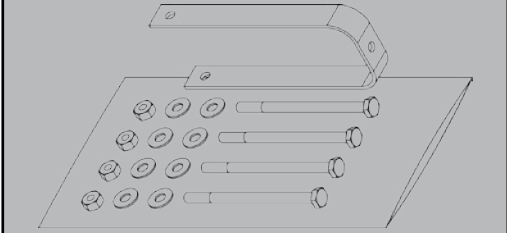

Parameter	Specification
Splice Capacity:	48 - Splice Only 96 - Ribbon Splices Only 24 - Patch & Splice
Patch Diameter:	Up to 1"
Connector Types:	SC/APC SC/UPC LC/APC LC/UPC
Outdoor Connector Types:	Multilink Surelight™ NPT Compression Fittings
Cable Types:	Unarmored Armored
Mounting:	Integrated Pole and Wall, Aerial, Pedestal
Burial:	Below grade rating / Vault Compatible
Material:	UV Stabilized thermal engineering grade plastic
Weight:	5.11lbs. (11kg)
Standards:	Tested in accordance to Telcordia GR-771-Core
Enclosure Features:	Re-enterable & Compression Sealed
