# Pedestal

| | |
|---|---|
| **020-490-00** | 10" x 24" Multilink Pedestal with 7/16 Hex Lock |
| **020-490-01** | 10" x 24" Multilink Pedestal with 095 Pattern Lock |
| **020-490-02** | 10" x 24" Multilink Pedestal with 146 P-Key Pattern Lock |

## Product Description

As the first fiber-specific pedestal, this model is ideal for residential or MDU applications. The Multilink Fiber Pedestal serves as an above-grade alternative to house and protect fiber terminations. This pedestal is simple, but provides an effective mounting post to place your equipment. With easy installation, these pedestals offer excellent protection of your MST/Fiber Tap or other equipment.  The Multilink Pedestals feature a high density polyethylene dome that protects against what Mother Nature may throw at it. The Multilink Fiber Splice Terminal (FST) may be added as an option.
