# MULTI-MEDIA ENCLOSURES

Smart homes/offices are driving the need for small network hubs within living quarters and businesses. Multilink provides clean, easy-to-maintain Multi-Media Enclosures with this in mind. The enclosures are capable of being recess mounted in the wall, surface mounted or free standing. They are made from Wi-Fi friendly plastic so your signal won't be affected. Expandable sections ensure plenty of space for current and for future expansions.

## FEATURES & BENEFITS

- Ultra flexibility, modular and scalable to accommodate wireless connectivity, Cat 6, VoIP, ONT's, gateways, battery backups, SOHO access modules and receptacle mounting
- UL & CSA listed
- Built in louvers for improved heat dissipation
- Recess, surface & free standing mounting

- Constructed of plastic to reduce electrical interference of wireless componentry
- Unique mounting grid pattern squares up components when mounting to the inside of the enclosure
- Independent door functionality
- Vented or Unvented Doors
