

16" Sno-Shoe®

71244K Strand Mount
71215K ADSS Mount

71244K

71215K

Product Description

The Multilink Plastic Sno-Shoe® has been designed with two purposes in mind. The first is to store additional lengths of fiber along the strand for later use. The second is to act as a safeguard, protecting the minimum bend radius of the fiber optic cable while establishing proper installation practices. The Multilink Plastic Sno-Shoe® is a durable and cost effective tool for storing fiber optic cable in the air!

Features & Benefits

- Prevents microbends in fiber optic cable
- Provides consistency and regularity in fiber optic loops
- Solution to spacing problems on poles
- Countersunk nut wells for easy one-tool installation
- Cable Trough™ design leaves installers' hands free to secure cable to the unit
- Stackable in multiple cable configurations to accommodate fiber mount tiering
- Cable Trough™ has slots that secure the cable to the unit in expansion situations without having to remove previously installed cable and drain water and ice

Specifications

Parameter	Specification
Dimensions:	18"W x 24"L x 1.5"D
Material	UV Stabilized Plastic
Weight:	1.7lbs
Mounting Kit:	Strand or ADSS
Channel Length:	59"
Channel Width:	1.0"
Channel Depth:	1.25"
Bend Radius:	8"
Boxed Quantity:	2
Boxed Weight:	4.4lbs
Standards	IEEE STD 1247-2005
Warrenty	20-year Pro-rated
