

# RACK MOUNTS

Multilink's Signature Series offers a complete line of fiber patch panel products (both wall and rack mount) for our CT-X cassette. Multilink's CT-X cassette offers a system wide modular solution for fiber connectivity. The CT-X cassette is fully integrated with each Signature Series product including the FRM-2RU. It can hold up to (4) CT-X cassettes or (6) FTM adapter panels.

## FEATURES & BENEFITS

- Various bulkhead brackets allow for both FTM modules and CT-X cassettes to be used
- Spring plunger allows for rack to securely lock when opening and a fixed closed position
- Swell latches allow for maximum compression for both door panel and rack top
- Option to silk screen custom logo on front panel (additional silk screening cost)
- Optional assembly to have a fixed door panel is available
- Removable door panel for additional room for access
